SUMMARY

A passionate Web Developer skilled in React.js, Next.js, Node.js, and MongoDB. Experienced in building scalable, responsive applications with focus on performance and user experience. Strong problem-solving and debugging abilities, with continuous learning mindset.

EDUCATION

Bachelor of Science (BSc), Shri Shivaji Science College, Nagpur 2021-2023

Masters in Computer Application (MCA), KDK, College of Engineering, Nagpur 2024-2026

SKILLS

Technical Skills	JavaScript, Typescript, ReactJs, NextJs15, NodeJs, ExpressJS , MongoDB, TailwindCSS, Java
Tools	Git, GitHub, NPM, Yarn, Vite, Postman, Figma, Unit Testing, Vercel, Firebase
Soft Skills	Troubleshooting, Problem Solving, Decision Making

EXPERIENCE

Frontend Developer Intern — Rablo

Oct 2024 – Dec 2024

- Worked on a dynamic web application using **Next.js**, **Redux**, and **SCSS** to enhance performance and user experience.
- Fixed numerous bugs and optimized existing components, improving overall application stability and maintainability.
- Collaborated with the development team to implement new features and ensure seamless API integrations.
- Refactored SCSS code for better modularity and maintainability, improving styling efficiency.

PROJECTS

E-Commerce Website [Link](#)

- Built a fullstack e-commerce website using **MERN Stack (MongoDB, Express, React, Node.js)** and **Stripe** for payment integration.
- Developed robust user authentication and authorization with JWT and role-based access control.
- Implemented product management, shopping cart, and order functionalities.
- Integrated Stripe for seamless payment processing and order tracking.

Blog Application with Admin Panel [Link](#)

- Developed a blog application using **Next.js**, **MongoDB**, and **TypeScript** with an admin panel for managing posts and content.
- Integrated Axios for data fetching and dynamic blog post rendering.
- Implemented admin authentication for secure post management and content updates.

Real-Time Chat Application [Link](#)

- Built a fullstack real-time chat application using the **MERN Stack (MongoDB, Express, React, Node.js)** with **Socket.io** for bi-directional communication.
- Implemented user authentication with JWT, allowing secure access and private messaging.
- Enabled real-time messaging, typing indicators, and chat room creation.
- Used Socket.io for live message broadcasting and online/offline user status updates.

TECHNICAL TRAINING / CERTIFICATIONS / ACHIEVEMENTS

- Responsive Web design - Free code camp 2023 - [View Certificate](#)
- JavaScript (Basic, Intermediate) - Hacker Rank 2023 - [View Certificate](#)
- ReactJs (Basic, Intermediate) - Hacker Rank 2023 - [View Certificate](#)
